Managers' report

I hope that for most LMR members the harvest and autumn cultivations have gone better than could have been hoped for back in July. LMR has supplied a lot of fuel, tractors and trailers this year. LMR is also actively involved in supplying labour to members and has a ready supply of operators available for the potato and beet lifting season.

Please consider including LMR members in your plans. It offers you cost control, flexibility and access to a wide range of machinery. The cheapest way of performing an operation may well be to use a contractor, rather than purchasing the equipment. The launch of LMR members supplying seed and fertiliser has got off to good start. I would encourage those of you still to place orders, to give us a call for our best price. We are continually striving to find ways to reduce your costs, but we do need your support to make the most of these deals.

I'd like to welcome Debbie to the LMR team. Debbie is assisting with the administration and handling fuel enquiries for Eastern members. She has joined at the busiest time, yet coped as though she'd been doing it for years. If you haven't already spoken to her, please call to introduce yourselves.

LMR AND LMR SERVICES LTD

First of all, I would like to give a warm welcome to Debbie Paddison who has joined LMR to work in the Louth office. Debbie will help me with the administration and fuel orders in the Eastern Region so that I can concentrate on the work and labour enquiries. Thank you to everyone who contacted me with new leads for work opportunities after my request in the last newsletter.

Job wise, I have been busy organising fencing, flailing, septic tank emptying, drain jetting and underground drain camera surveys, hay and haylage making, footbridge supply and installation, PAT testing, spot spraying thistles, grass mowing, herbicide and insecticide spraying of sports fields, tree felling, quad bike spraying of herbicides, CCTV installations, combining, drilling, cultivating and grass seeding, mole gassing, supply and installation of a large elevator and electric roller doors, and supplying labour to members.

LMR offers various land based training courses for Machinery, FLT, Health & Safety, Management, and Livestock etc from November to March. Please book early with me to avoid disappointment!

Farm security is a big worry as always, and LMR members can provide you with such services as complete CCTV systems and plastic or metal lockable fuel stations, supplied and installed, so please give me a call and I will arrange a free site survey and quotation for you. New to LMR is a vehicle and machinery TRACKER device supplier, and also alarms and invisible sensors for farmyards etc.

Other new LMR Member services include site investigation and bore hole drilling, Solicitors, Chartered Accountants, Insurance, and landscaping services.

LMR now has ERF, an electrical wholesale member in Lincoln. Please contact me if you would like a free catalogue.

Also, please contact me if you can provide or sponsor a venue and buffet for the next LMR Services Ltd Network Event, ideally in the Boston or Skegness area. These events are growing as they move around the LMR region, and are providing valuable marketing opportunities for members, as well as generating business for both LMR and LMR Services Ltd.

Following the success of the LMR Services Ltd diaries, I am now taking orders from LMR members wanting to place a full colour advert in the next batch of 300 which will go out at Christmas. First come, first served so don't delay, call me today!

The Roadless 90 Working Day is at Scopwick on Sunday 27th September by kind permission of David Leech. Please support this event.

Finally, LMR Member Ben Spink is organising a sponsored tractor drive in April 2010 from Lands End to John O'Groats incorporating the 3 Peaks Challenge!
