MANAGER'S MESSAGE

You will be busy on all fronts now, establishing spring crops, lambing and calving, and fertilising autumn plantings. Spring weather will soon be encouraging rapid crop growth and shift work on the sprayer! LMR members can help with virtually all operations if the need arises. Whether it is a calibration of the fertiliser spreader or sprayer service and test, we have members providing the service and often with a discount. You may be considering training courses for your staff to keep tickets current or to acquire new skills. LMR has members offering a wide range of courses at competitive prices and a flexible approach to numbers and location.

Harvest planning for men and machines will highlight the need for additional tractors, trailers and staff. LMR has been very successful providing hire tractors and trailers from a choice of manufacturers and hire companies at very competitive prices. Please call with your enquiry as popular horse power tractors get booked out fast. LMR will be assisting members with finding staff for the harvest period. Every year we provide gangs for grain store cleaning and rouging as well as drivers for carting, baling, cultivations and combining. Please call to register your requirement.

Ad blue has become a necessity on many farms as new machinery is purchased.

Fortunately, LMR has very competitive suppliers of ad blue in barrels or IBC's. We also have a member supplying manual and

electric pumps for ad blue at a considerable discount for fellow members. Many members are already benefiting from these great deals. Please call for further details. LMR is having phenomenal success with member take up of the Spaldings deal. Over 100 members have signed up in the last three months. If you use or are interested in using Spaldings for spares, wearing parts and consumables please call to discuss the benefits of the deal.

The show season will soon be upon us and LMR will be attending various shows with the LMR stand. We hope you will come and join us. Details of forthcoming events are within this newsletter.

With kindest regards
Andrew & Jayne

Do you ever need to hire equipment, labour or any other service?

If so, LMR can provide this via the other machinery rings in other areas of the UK.

*****ADVERTISING OPPORTUNITY*****

SPONSORS NEEDED

**For the LMR stand
At the Lincolnshire Show**

Would you like to promote your products on the
LMR Stand at the Lincolnshire Show for free?

All suppliers that are interested will go into a draw and the first drawn on each category will be able to show case their products along with advertising their company name.

All products, materials and signage will be at the supplier's expense.

Free advertising will be given on the LMR Stand

This is an excellent opportunity to promote your products with LMR.

We have a strong membership and we anticipate our stand will be very busy over both days.

The deadline for all interested parties is

Monday 11th May.

Categories are:-

Fencing – Aggregates – Fertilisers

Seed – Tyres - Tanks

Fuel - Renewable Energy – Wearing Parts

Insurance

If your category is not listed, we would still like to hear from you so please contact Jayne to discuss further

LMR Serving the East Midlands

Rainwater Harvesting Systems

Interesting data

One of our LMR members, an agricultural specialist installer, has kindly provided us with the following calculations from a customer installation:-

Based on a 425 Sq. m roof surface area per side of barn. A 15,000L tank is placed each side:

1 inch of rain (25mm x 425sq m) = 10,625L water

1.5 inches of rain (37.5mm) fills 1 tank (37mm x 425sq m) = 15,725L water

625mm of rain fall over 1 year (average for the area) divided by 37mm (rainfall needed to fill a tank) = 16.89 tanks filled per year

Divide this by 2,500 litre tank capacity of the sprayer = 192 sprayers OR 480,000 litres divided by 150 litres per hectare of water per application approx. 3,200 ha of spraying

This was over half of the customers yearly spraying water use and all off only ONE barn!!!!!!

If you would like to find out more information from this LMR member, and maybe book a free on site survey, please contact Jayne or Andrew
