MANAGER'S MESSAGE

Collaboration is at the front of our thoughts at the moment as it is at the core of LMR activities. We encourage the membership to collaborate as much as we aim to collaborate with others for the benefit of all members. The resulting benefits for those involved are strengthened businesses with progress made on a number of levels. These may include increased profitability, new business opportunities, enhanced trading relationships, flexibility of operations and access to machinery and skilled operators. Members have been working together with crop spraying, fertiliser spreading, building work, fencing, hedge cutting, carting and drain jetting in recent months. Enquiries are in for combining, cultivating, umbilical spreading, irrigating, carting and tractor hire. Members are pricing new buildings, concrete and tarmac with LMR, which shows confidence in the future. LMR endeavours to develop strong relationships with supplier members that offer group deals to the membership to achieve competitive prices and superior service levels. The result is a comprehensive range of deals that many members can benefit from. There is significant success and turnover with fuels, lubricants, gases, concrete, filters,

Ad Blue, workshop consumables and wearing parts.

Please call LMR to benefit from collaboration with your fellow members. There is an enormous pool of resources within LMR that you can call on for solutions to your machinery, labour and input requirements. Tractor hire bookings are progressing and availability on larger machines is dropping. Please call with your requirements to avoid disappointment.

With kindest regards
Andrew & Jayne

**Precision
Decisions**

DRIVING FARMING FORWARDS

Precision Decisions join LMR
