MANAGER'S MESSAGE

The warm weather and occasional rains are encouraging crops to rush through the growth stages, keeping the sprayers busy. The pre harvest preparations continue with members taking roguing teams to clear blackgrass and clean up fields going for seed. We have members booking hire tractors for baling, cultivating and spreading in the summer. We have some very competitive options on a range of tractor brands and horsepowers from our trusted suppliers. Please call to discuss your tractor and trailer requirements as stock is limited. Hiring is often the least cost solution unless you can work a machine year round.

LMR members doing environmental and building works are using us for the supply of aggregates, concrete and asphalt as well as precast concrete panels and piping. LMR can supply a comprehensive range of concrete products for grain stores, silage clamps and drainage (including culverts and gulleys) with generous discounts for members.

We had a good response from members asking to discuss electricity pricing with our brokers which have resulted in significant savings being negotiated. In a period where prices are rising fast it is essential to act in good time before your contract period ends so that you can explore the options available. Our brokers

don't charge you for their work, so please call to see the savings they generate.

New season fertiliser prices are likely to be announced in the next few weeks. It is likely that the early season prices will be competitive and consequently tonnages will sell out fast. Please plan your requirements and let us know so that we are ready, as there is likely to be a short window of opportunity to act. We have a broad choice of market leading suppliers for all of your mainstream as well as niche fertiliser products from which to get you some great prices.

The same is true of LMR's seed suppliers, so please call with your requirements for us to price up for you. LMR has mobile seed cleaning specialists for those who home save seed. We are fortunate to have discounts that we can pass on to you. Please call us.

As always, we look forward to seeing you at our stand at Lincolnshire Show. Please join us for refreshments and a chat.

Kind regards

Andrew & Jayne

Liquid storage tanks

LMR has a number of suppliers offering tanks for
water and liquid fertiliser storage as well as
portable tanks for bowsers to manage your
spraying and mobile ad blue needs.

We have quality suppliers of single skin, banded
tanks and fuel, steel and plastic tanks to
members.

Please call if you are looking for a new tank.

Straw wanted

LMR's baling contractors are looking for all types
of straw in the swath for baling across our region
and particularly in the Leics/Lincs/Notts areas.
They offer very competitive rates per bale and a
quality and timely service. They will also bale
straw that you want to keep. Please call with
any straw in the swath that you have available
this harvest. Every year we help members get
market leading prices for their straw.

Foil Metal & Diesel Thieves

- Store diesel in a secure fuel tank within a bund and use good quality locks
- Carefully consider the sitting of the tank and avoid isolated areas such as outlying buildings
- For tanks sited close to an electricity supply, additional security in the form of lights, motion sensors or alarms should be considered
- Paint a recognisable design on low value metal items such as gates and takes photos
- Dispose of scrap metal regularly and legitimately and report and suspicious activity to the police

GDPR

You will all have been bombarded with GDPR statements and consent requests. LMR has been busy reviewing its' use of your data and released a new Data Protection Policy which is on our website www.lmr.org.uk.

Grain needs drying?
