## MANAGER'S MESSAGE

After a false dawn we are entering springtime. Members will be busy with all manner of arable tasks while the livestock farmers manage lambs and calves and put their stock out to grass. LMR will be busy tasked with helping members fulfil these goals by supplying contracting services, fuel, and inputs.

We will soon be focusing on the summer work load and the demands it makes on our businesses, machinery and labour. It might be wise to book your hire tractors earlier this year as the demise of Hawk Hire will put pressure on supply. Please call us for a quotation as we have a number of suppliers and access to a variety of makes. The labour market gets ever tighter, with all sectors of agriculture affected. Please think about your gang labour requirements for blackgrass pulling and grain store cleaning and register your interest with us.

In these uncertain times where politics has the potential to disrupt our trading patterns and markets in addition to the changes in subsidy support and a labour shortage, it is understandable that investment decisions on machinery and enterprises may be put on hold. A solution to replacing a machine and staff shortages is to use a contractor. Within LMR we have any number of farmers and contractors providing cost effective and timely solutions to your machinery needs. Using a contractor is often the least cost way of completing arable tasks. Call us to discuss your needs and see what the contractor options are.

LMR has been assisting a good number of members with re-concreting their farmyards. We have specialist members that can sort out groundworks and drainage as well as lay concrete

and erect new buildings. If you are considering this kind of work, please call for quotes.

LMR would like to thank you all for your unwavering support through 2018 which saw us sign off another very successful year, exceeding targets and in good spirit for serving you in the year ahead.

With kindest regards  
Andrew & Jayne
