MANAGERS' MESSAGE

Managers' Message

With the 2019 harvest complete, members are looking to the future, facing unusually wet conditions and the consequential dilemmas of cropping and machinery requirements. This comes at a time of additional pressures coming from Brexit uncertainty affecting markets and prices and from crop failures in OSR caused by cabbage stem flea beetle. Each business will have its own unique challenges, whether from labour, black grass, enterprise mix etc. LMR is here to help you find solutions and make opportunities out of this situation. Your ring is the link to 550 other businesses in the region, giving you access to their skills and machinery. By working together you can reduce costs and improve timeliness, whilst also achieving significant savings on input purchases.

To help you navigate a smoother and more successful path into the future, **LMR is hosting a conference on 'Change – its efficient implementation' (opportunities and pitfalls) on the 25th November at Branston Hall Hotel, Lincoln.** We have three very experienced speakers, in Gary Markham (Land Family Business Ltd), Robert Knight (Fisher German LLP) and Guy Smith (Deputy President of the NFU) to share their knowledge and give insight on identifying the need for change, how to implement it and be adaptable, learning from the past and looking to a successful future. Please join us for an insightful afternoon and a meal in the evening.

We very much hope you will join us and our sponsors for the conference. The event is free of charge and places are limited, so please book early to avoid disappointment. Contact Andrew for more information.

We owe a big thank you to the sponsors as this conference would not have been possible without them. The sponsors are Mitas, The Witham Group, AB Components, Fisher German and Watson supported by Landmark Systems, Forrester Boyd, Chandlers Farm Equipment, Prince Petroleum, ADM, Spaldings and Velcourt. By working with our sponsors we have been able to put the event together – co-operation for the benefit of all.

Please embrace co-operation in your business by working with LMR and your fellow members.

Thank you for your ongoing support. We are stronger together.

Kind regards

Andrew & Jayne

definition aerial photography and
videography * Aerial inspections
Contact Vivienne at the LMR Office

ARE YOU READY FOR 2020 SEPTIC TANK REGULATIONS?

Under the Environment Agency General Binding Rules, if you have a septic tank that discharges directly to a surface water (ditch, stream, river, lake, etc.) you must replace or upgrade your septic tank treatment system to a full sewage treatment plant by 1st January 2020.

IN JANUARY 2020 YOUR SEPTIC TANK FOR YOUR DOMESTIC AND BUSINESS PROPERTIES MUST COMPLY WITH THE NEW RULES.

These state that if your effluent pipe goes straight into a dyke, stream, river, lake etc, you must install a new soakaway system from a septic tank or install a sewage treatment plant, which can be discharged to a water course that has running water 24 hours a day 365 days a year. No dry dykes etc.

The above information is kindly provided by LMR member ASAP PLASTICS who offer's discounted prices to LMR members. Nationwide coverage.
