## SUMMER 2021

### MANAGER'S MESSAGE

It is no surprise that the weather has been the talking point recently, as finally the cold wet weather system breaks down and we get the warm dry weather we have been hoping for. Crop growth stages are behind, but nature has a habit of levelling things out.

In the run up to harvest members will be planning rotations, assessing the attractiveness of environmental schemes, servicing machinery and finishing building work. Financial budgeting will be complicated by the inflation in prices of so many inputs and materials. Timber, steel, fertilizer and machinery have all risen rapidly in price. It may be that using a fellow LMR member as a contractor who has economies of scale and skilled operators is the solution to rising costs, instead of replacing equipment. This approach retains flexibility and allows investment to be targeted at the most financially rewarding enterprises. I see members continuously diversifying their farms with new business ventures. Using contractors for arable and root work will free up management time and funds to concentrate on developing these new businesses. At the core of LMR is the pool of equipment and contractors with an unrivalled inventory of machines and skilled operators. Please call to discuss your requirements.

The new season fertilizer prices had a mixed reception as they were considerably higher than last year. Only time will tell in which direction they head, but please call us for a quote from our suppliers. They supply the full range of products that you might require. LMR also supplies seed from a number of quality merchants to satisfy your autumn cropping requirements. Please call for a quote.

Baling contractors and livestock farmers have had a challenging year sourcing straw due to the reduced cereal areas planted and lower yields from 2020's harvest. They are keen to bale straw across the LMR region and are offering competitive prices. Please consider them before engaging the chopper.

LMR can provide gang labour for your pre-harvest grain store cleaning and crop rogueing. We have teams from GLAA approved gangmasters that perform a wide variety of manual tasks. There may also be skilled tractor drivers that we can source for you. Please call to discuss.

Thank you for your ongoing support of LMR and its' members services. We look forward to working with you through the summer and autumn seasons.

Kind regards

Andrew & Jayne

### Crop Rogueing / Grain Store Cleaning

LMR has GLA licensed suppliers

**LMR Serving the East Midlands**

SILAGE WRAP: STRING: SEED: MOWING: WRAPPING: BALING: COMBINING

Contact LMR

**Important information for labour users**

LMR does not have a GLA licence and operates as a machinery ring under GLA guidance notes April 2019, section 5.9.

The April 2019 GLA Guidance on who needs a licence can be found via the link below:

<https://www.gla.gov.uk/media/5957/guidance-on-who-needs-a-licence-april-2019.pdf>

It is your responsibility to determine whether the labour providers you use need a GLA licence. In most circumstances they will need a licence.

It is also your responsibility to check the current licence status of the labour provider you are using on a weekly basis via the link below

<http://www.gla.gov.uk/i-am-a/i-use-workers/>

LMR have GLA licensed labour supplier members. LMR undertakes weekly checks on GLA licensed labour suppliers' current license status. However, this does not negate your responsibilities.

You also need to sign the terms with the supplier prior to any workers' starting, along with ensuring your risk assessments and insurances cover all staff undertaking any work at your premises.

You also need to have the list of all worker's names from the supplier prior to them commencing any work with you.

With us all working together, we can ensure that regulations set by the GLA are met and we are all complying with the rules, safeguarding everyone, which includes the workers, the farmers and all others that use labour.

Failure to comply with the GLA regulations can have very severe consequences for you and your business.

**Keeping the work within the “Ring”**

**FARM THEFT**

There are prevention methods you could use to reduce the risk of becoming a victim.  
(information from the Lincolnshire Police Rural Crime website)

**Machinery and tools**

Try to secure or immobilise vehicles or equipment when not in use. If possible, remove machinery from fields, especially near roads.

Keep a record of the serial number, chassis and model numbers of machines.

Paint your name on valuable tarpaulins in letters at least one foot high.

Use metal engravers to mark tools, vehicles and equipment with your postcode followed by the first two letters of your farm's name.

Keep tools and small pieces of machinery locked away. Do not leave them lying around.

**Farm buildings**

Store valuable equipment and tools in a secure building behind a strong locked door.

Use British Standard locks, good quality locking bars and high security padlocks. You can protect windows with metal bars. Lock outbuildings when you are not using them.

Fit outside security lights controlled by an automatic time-switch or infra-red beams that react to heat or movement.

Consider fitting an intruder alarm or CCTV to alert you to anything suspicious.

If you have been a victim of a burglary, call 101

If a burglary is in progress and you are in immediate danger, call 999.
