MANAGER'S MESSAGE

It is a relief to be able to get a newsletter out to you after so many months of working to minimize the risks of COVID. At last we are beginning to see a path back to normality as the vaccines are rolled out. We do hope that you have been spared from infection of the virus, both personally and within your family and friends. Although farming has in many ways not borne the full economic force of this pandemic, many of you will have been affected in other businesses and enterprises that you are involved with. We wish you well with your efforts to rebuild.

LMR has as you know worked through this crisis as farming cannot stop. The New Year heralds a new era within farming as Britain leaves the EU, the framework of support for farmers begins to change to one centered on the environment and welfare. This is on top of the normal challenges of weather, access to chemical active ingredients and volatile market prices.

LMR's members are resourceful and adaptive to change and will adjust to the opportunities and threats as they have in years past. LMR will be here for you, facilitating contracting solutions between members. This contracting resource that so many of you contribute to is a formidable asset that you can draw on for timely and cost effective agricultural solutions. Farming businesses will be adapting to an enlarged environmental area on farms, larger machines with more embedded technology whilst younger family members with new ideas and priorities take on management roles.

Businesses will have to be flexible and adaptable in the years ahead to face these challenges and thrive. LMR will continue to provide savings and benefits for you on inputs through targeted deals and group purchasing deals. There are considerable savings to

be made through cooperation and LMR will endeavor to work hard for you so that you can enjoy the benefits.

2021 is our 30th year in business working with and for you. It is very satisfying to see so many of the original members still actively engaged with LMR. We would like to express our sincere appreciation of your support of LMR and your fellow members and look forward to LMR working with you all in the years to come. We look forward to seeing you at any shows and events that we can attend through the year.

Please see the many deals and services that are on offer to you through LMR in this newsletter. Members are purchasing fertiliser, seed, concrete, batteries, fuel tanks, vehicles, wearing parts, workshop gases, fuel, ad blue, lubricants, tanks, tyres, filters, electricity, plant & tractor hire, aggregates and more from us on a regular basis. Please call for quotes and further information. Wishing you all a happy and healthy Christmas and a prosperous and rewarding 2021.

Andrew & Jayne

Utilities Update

“The Electric and Gas wholesale markets have seen a gentle decline in the last 12-18 months with prices hitting the bottom in March last year at the height of the Epidemic. They’ve steadily gained a bit of ground over the summer and with all hopes being pinned on a vaccine, the markets started to lift again. Oil demand plays a large part in the wider mix and with OPEC scheduled to suspend a previously proposed increase this will further boost the markets. Healthy supplies of LNG into the UK are looking to keep gas supply ample over the winter so unless there’s a really cold snap we shouldn’t see a huge increase in prices over the winter. Should the world see a ‘return to normal’ in sight post vaccine then it’s quite possible we’ll see an uplift in all commodities and therefore locking a deal early for this year and beyond may prove to be a worthwhile move.”

This information has kindly been provided by an LMR Utility specialist member.

Over the years, LMR members have taken advantage of saving money on their Electricity bills by using our Utility Specialists.

Considerable savings have clearly been made, so why not join the other members and save money?

Countryside Stewardship Applications

Farmer's son offers practical help with Countryside Stewardship applications as BPS payment reductions announced.

Use Stewardship to lower risk, fix an income and increase profitability.

Payments range from £35/acre up to £253/acre for simple and profitable options on as much or as little of the farm as you choose.

Some farms already meet requirements and make no change to fields or farming but receive good payments under 5-year stewardship agreements. Independent and proven advice as experienced on our own farm near Loughborough.

References available from previous clients.

Involved in 3 ELMs tests and trials learning how the new system evolves.

Free Farm appraisal and detailed payment breakdown.

Fixed price applications.
