SUMMER 2022

MANAGER'S MESSAGE

Welcome to our summer newsletter. Food is certainly making the news headlines with grave concerns on supplies and high prices. Global dry weather and greatly reduced grain and oilseed exports from Ukraine and Russia will be a major concern to the many nations which are dependent on food imports. This comes at a time when they are struggling financially from the cost of Covid. The flip side is that grain and oil producers are seeing prices reach new highs. Crop margins, however will be moderated by the significant rise in the cost of fertiliser, fuel and machinery. This volatility will take some managing, with pressure on cashflows and elevated levels of pricing risk. These high prices will reset lower once the exports resume and new harvests come to market. We feel for all consumers of grain in the livestock sector who are not seeing their end product prices rise enough to cover elevated costs. LMR can assist members with savings on inputs through our many group deals. Wearing parts, fuel, filters, ad blue and lubricants are very popular with members. Please call for prices and details on these inputs.

Supply chains are under pressure, whether from lockdowns in Chinese cities and ports, the war in Ukraine or cyber-attacks on manufacturers. It may pay to order parts in advance that you know you will need. LMR can help with providing back up if machines are out of action. We have many contractors with skilled operators looking for additional work. Their services come at very competitive prices and are a flexible resource for you to call on. New machinery has long delivery lead times and high prices. Moving to using contractors may well be the most effective and

cost-efficient solution. There is the added advantage of saving capital to finance inputs.

Please call us for quotes on seed and fertiliser for the new cropping season. LMR has suppliers offering the full range of products and varieties at very competitive prices. Fertiliser is caught up in the global consequences of the Ukrainian war. There are sanctions, national export bans and lost production all driving up prices. We have members supplying alternative fertiliser products that may be a solution to you. Please call for quotes.

Fuel delivery times have returned to normal, but prices are volatile and the spread between suppliers is elevated. LMR has multiple suppliers and prides itself in finding the best price and delivery solution for members, even in challenging times. Please call us for your fuel needs through the summer.

LMR will be at the Lincolnshire Show. Please come and visit the stand for a chat and refreshments. We look forward to catching up.

Kind regards

Andrew & Jayne

Risk losing suppliers

Suppliers of services to LMR will question their membership if they aren't seeing support from the membership. We have a comprehensive range of services for members that includes seed, fertilizer, concrete, aggregates, buildings and more. Where suppliers aren't seeing requests for quotes and business, they question the value of membership. If we lose suppliers our competitiveness will suffer and you won't get the best deals. Please support LMR. Call us for prices and protect your services for the future. We have trusted professional suppliers offering very competitive prices across many products. LMR's range of services is wide, please call with your enquiry as there is every probability we can help.

Another good trading year for LMR

LMR appreciates the support and business from members throughout 2021. We had another good year with turnover up by 22% to £7m. Fuels, commodities and lubricants exceeded their target figures. Comparisons can be hard to make when there is so much volatility from covid disruption, however fuel generated £6m of turnover. I hope this is testament to the support of our suppliers with competitive prices and high service levels, as much as it reflects the strong support of you the members. Thank you all for working with us. Cooperation delivers benefits to all parties.

Tanks

Fuel, oil, water tanks and bowsers.

Sales, hire and service.

Important information for labour users

LMR does not have a GLA licence and operates as a machinery ring under GLA guidance notes April 2019, section 5.9.

The April 2019 GLA Guidance on who needs a licence can be found via the link below:

<https://www.gla.gov.uk/media/5957/guidance-on-who-needs-a-licence-april-2019.pdf>

It is your responsibility to determine whether the labour providers you use need a GLA licence. In most circumstances they will need a licence.

It is also your responsibility to check the current licence status of the labour provider you are using on a weekly basis via the link below

<http://www.gla.gov.uk/i-am-a/i-use-workers/>

LMR have GLA licensed labour supplier members. LMR undertakes weekly checks on GLA licensed labour suppliers' current license status. However, this does not negate your responsibilities.

You also need to sign the terms with the supplier prior to any workers' starting, along with ensuring your risk assessments and insurances cover all staff undertaking any work at your premises.

You also need to have the list of all worker's names from the supplier prior to them commencing any work with you.

With us all working together, we can ensure that regulations set by the GLA are met and we are all complying with the rules, safeguarding everyone, which includes the workers, the farmers and all others that use labour.

Failure to comply with the GLA regulations can have very severe consequences for you and your business.
