MANAGERS' MESSAGE

The autumn drilling will be well underway on many members' farms. Conditions have been favorable to date with early cultivations triggering good weed germinations. Seed beds have moisture and have worked down easily in most cases, which should get the new crop off to a good start. Of course, one cannot generalise, members with livestock and potatoes are facing a range of challenges. This has been a year when many of the things that we took for granted have been severely challenged. The price volatility on inputs and the produce we sell has been unprecedented. Supply chains have been stressed to breaking point and availability of materials and spares is far removed from the just in time model we have grown used to. Electricity and fertiliser being some of the worst affected. Fuel prices have roughly doubled in the year, but fortunately supply has held up.

LMR has had robust trading throughout the summer and autumn thanks to your ongoing support (which we greatly appreciate). The LMR fuel purchasing model held up well, demonstrating its resilience through a period of unrelenting challenges from Covid, refinery blockades and extreme price volatility. The relationships that we have developed over the years with multiple suppliers has given us the flexibility to provide you with competitive prices and timely deliveries. We have gained members solely for the supply of fuel through this period.

LMR continues to find solutions to your many and varied requests for contractors. Members have provided baling, OSR drilling, cultivations, mid-tier arable option establishment, demolition,

building maintenance and slurry tankering to name a few. We have supplied fuel tanks, concrete and storage solutions too. There is an ongoing requirement for storage space across the territory. Please call for further details.

We are in a period of significant change, some of it we can see and some will become clear as we move into next year. There are the reductions in BPS and the move to new environmental schemes (SFI) which we will have to embrace to retain income. Other changes may come in the type of fertilizer we use and the crops that we grow. LMR member consultants can help with agri-environment scheme advise (ELMS and SFI) and the sourcing of a wide range of fertilisers. We have contractors with specialist machinery and capacity to take on work. Using a contractor is often the most cost-effective way of performing operations. LMR has an unrivalled resource of contractors amongst the membership. Please call to discuss your requirements.

We enjoyed meeting members and potential members at the Southwell Ploughing match last weekend.

Thank you as always for your support of LMR. We hope the autumn and winter months allow you and your businesses to prosper.

Kind regards

Andrew & Jayne

DISCOUNTS ON WEARING PARTS

**LMR Stand at The Midlands Machinery Show
16th & 17th November**

*Come and join us on the stand in
The George Stephenson Exhibition Hall*

Look forward to seeing you there

**Top up BPS payments with the first part of the
Sustainable Farming Incentive (SFI).**

This first part of ELMs is open to applications now. With an open application window and monthly, rolling start dates; the sooner you apply the sooner you will be paid. Payments made automatically, quarterly with no annual claim for a three-year agreement.

The Arable Soils standard is the first part of the SFI 2022 scheme. The further parts of the scheme will be added over the next 3 years as BPS continues to reduce.

We have independent members who can help farmers, with references available. Some LMR members are already involved in the Pilot schemes and have received payments under ELMs.

Speak to LMR for contact details on who can help maximise farm payments.
