MANAGER'S MESSAGE

2022 has certainly been a year of the unexpected. Russia's invasion of Ukraine showed how interconnected the world is with sanctions having implications on prices and availability of so many of our inputs and outputs. The extremes may have passed but we are still faced with a very volatile market in many products. This follows the Covid pandemic which dominated the previous two years.

That said, LMR has had another good year working for members, with notable successes supplying fuel at competitive prices through a number of supply crunches and in an extremely volatile market with prices moving more in a day than you would normally see in a week. New members have joined on the back of the fuel supply success and from a member's requirement for storage space. It is enlightening to see how a completely new opportunity such as storage leads to renewed member engagement and fresh income streams. It is like new DNA in the LMR gene pool.

The start of a new year is always a good opportunity to review what we do and how and why we do it.

Please consider how you use LMR in this review. We have an unrivalled resource of contractors that can perform timely and cost-effective operations for your arable and root enterprises. The same is true of groundworks, buildings, and hedging, fencing and establishing and managing environmental schemes.

Many members benefit from considerable savings on their input purchases by participating in our group deals with Calor, wearing parts suppliers, Ad Blue, lubricants and filters. The supply of fuel is a big part of LMR and its success. Yet again our relationships with suppliers has

allowed us to get fuel onto farms at competitive prices and in a timely manner. That level of service has come about due to the regular orders that members place with us day in day out. If you are one of the members that do not usually use us, but came to us for help, please consider joining the many regular members buying fuel through us. As good as the service is, we want to help you all, all the time. We are grateful that you have recommended us to your friends and neighbours for fuel supply. The more business we do, the stronger the service will be.

LMR and you the members really stand up and deliver when the situation is challenging. Thank you for being there to support each when called upon.

We enjoyed being able to meet you once more, following the relaxation of Covid restrictions. We caught up with many of you at the Lincolnshire Show, the Midlands Machinery Show and at the Southwell Ploughing match and the Rutland Ploughing match.

LMR looks forward to working with you in 2023, identifying new ways to bring you benefits and make savings for your businesses. Thank you for your ongoing support, it is greatly appreciated and satisfying to see the ring develop and grow through helping the members.

Wishing you a very happy New Year and a rewarding 2023.

Kindest regards

Andrew, Jayne & Vio

Happy New Year!
