SUMMER 2023

MANAGER'S MESSAGE

Welcome to our Summer newsletter. You will be busy making silage and preparing for harvest. Winter arable crops and grass leys look well and are growing vigorously with the warmer weather. Spring crops will be needing rain meanwhile irrigators are put to work.

The wet March has encouraged a flush of blackgrass that now populates many formerly clean looking wheat crops. Another battle to be fought in an ongoing war against this persistent grass weed!! LMR has teams of gang labour for roguing if you chose to pull infestations of weeds. The last loads of grain will be leaving grain stores. We have teams that can clean and treat stores prior to harvest. We may be able to help with building repairs too. LMR can supply concrete and aggregates for your farm track and farmyard projects. If your tarmac drive needs resurfacing, we have members providing a professional service. Please call to discuss.

Staff training on machinery operation, health, and safety, first aid and many other courses is available through the Ring. Whether you want refresher courses for full-time staff or training for seasonal workers, please call us. We have a number of long-standing members offering a multitude of training packages to suit your needs. You may be able to join an established course or have a trainer come to your farm or business.

We are aware that the police and VOSA are actively enforcing tractor and trailer regulations on the highway. Please refresh yourself with the regulations on weights, braking, number plates, sheeting etc. One regulation catching farmers out is that produce (silage, muck, grain etc.)

above the height of a trailer side will require sheeting down. Another is that number plates on trailers must match those on the tractor towing it.

Kindest regards

Andrew, Jayne & Viv

IMPORTANT INFORMATION FOR LABOUR USERS

LMR does not have a GLAA licence and operates as a machinery ring under GLAA guidance notes April 2019, section 5.9.

The April 2019 GLAA Guidance on who needs a licence can be found via the link below:

<https://www.gla.gov.uk/media/5957/guidance-on-who-needs-a-licence-april-2019.pdf>

It is your responsibility to determine whether the labour providers you use need a GLAA licence. In most circumstances they will need a licence.

It is also your responsibility to check the current licence status of the labour provider you are using on a weekly basis via the link below: -

<http://www.gla.gov.uk/i-am-a/i-use-workers/>

LMR have GLAA licensed labour supplier members. LMR undertakes regular checks on GLAA licensed labour suppliers' current license status. However, this does not negate your responsibilities.

You also need to sign the terms with the supplier prior to any workers' starting, along with ensuring your risk assessments and insurances cover all staff undertaking any work at your premises.

You also need to have the list of all workers' names from the supplier prior to them commencing any work with you.

With us all working together, we can ensure that regulations set by the GLAA are met and we are all complying with the rules, safeguarding everyone, which includes the workers, the farmers and all others that use labour.

Failure to comply with the GLAA regulations can have very severe consequences for you and your business.

For more information, please visit

www.gla.gov.uk Gangmasters and Labour Abuse Authority

Any queries, please contact LMR
