March 2014

An early spring? Members take advantage of the warmer brighter conditions to get back on the land, spraying, fertilising, cultivating and drilling. Autumn sown crops come out of the winter looking well and grow on vigorously. LMR is busy playing a supporting role to members, getting fuel and fertiliser on to farms. Aggregates repair damaged farm roads and yards ready for the new season's traffic.

LMR will be quoting on new building projects that members are planning. We have suppliers for groundworks, concreting, building supply and modification. Livestock, arable and renewable energy projects are being planned across the region. Please call us to discuss the many ways in which LMR members might bring timely and cost effective solutions to your project.

We have been supplying wrap, net and string for the silage and hay making seasons for many years and look forward to pricing up your requirements again this year. There is a range of suppliers and brands to suit your varied needs.

Volatility seems to be the name of the game these days. Whether it is the price of our produce or the inputs we require, the weather conditions and news headlines constantly move the markets around. Fuel is a significant expense for many businesses. Fortunately this is an area where LMR has a long history of supporting members with timely and least cost procurement. There are also options to lock in forward fuel prices to meet cash flow and budget targets. Please call with your orders.

I thoroughly enjoy meeting members at their farms to discuss their future farming plans and the role that LMR and its' members may play. It is very satisfying that we nearly always discover areas where LMR can reduce costs and provide solutions. The benefits of this are being spread amongst members and LMR alike. Don't wait for my visit to see your savings, give me a call and include us in your plans. **Wishing you all a very productive spring season.** Andrew

LMR STAND

AT

PLEASE COME ALONG AND JOIN US

We will be show casing the services we offer LMR Members.
Enjoy a Cold Beer, Wine,
Strawberries & Cream

Andrew & Jayne look forward to welcoming you onto the LMR Stand

FOURTH AVENUE

Summer labour

LMR Services Ltd will be helping members find labour for the summer period through our advertising campaign. Please let us know your requirements for tractor and combine drivers so that we can help you find suitable operators.

If you need staff for rogueing or grainstore cleaning it is most likely LMR will be able to help. We have supplied teams for many different roles very successfully over the years.

LMR Member is running the 2014 London Marathon

Chris Waller of Utterly, Louth, is in constant training getting ready for the 13th April.

He will be running for The Lincolnshire & Nottinghamshire Air Ambulance Charitable Trust who in 2005 attended Chris's father so it is his way of putting something back to help run the trust. This dedicated Helicopter emergency medical service can often mean the difference between life and death. Please follow the link below, should you wish to help Chris raise his target and beyond..

LMR Serving the East Midlands

Managers message:

LMR had a very successful two days at LAMMA, the stand was busy with lots of LMR members and potential new members joining us at the show. Thank you for coming to see us. Hopefully, everyone got out the car parks okay or should I say the mud baths. Thank goodness for Wellies and 4X4's!

With the first few months of the year now behind us flooding has indeed been a misery. Our region got away quite lightly compared to others in the South of the country. We salute the farmers and businesses within our region that assisted Farmers within the Somerset areas

The wind that affected our area unfortunately caused some havoc and it was terrible to hear that a few people have been impaired when using Rope Bangers in the wind. It has been brought to our attention that people have lost fingers so please take extra care.

Spring is at last here and the sun is shining, well hopefully it still is when you read this and the snow has not made an appearance however, we are still keeping our snow clearance teams on standby just in case!

Seeing more tractors around when I'm out visiting members shows that the season has now started and requests are coming in daily for assistance, so if you need help do please let us know.

In between dealing with our member's requests we have started to get ready for the various events we will be attending this year. One of the biggest for LMR is The Lincolnshire Show and we hope you can join us on the LMR stand.

In the meantime, don't forget our buying group deals that are available to the LMR members and if you do need someone to undertake work for you, whether that is for labour or a contractor do please let us know.

With kindest regards, Jayne

ADVERTISING OPPORTUNITY SPONSORS NEEDED

Would you like to promote your products on the **LMR Stand at The Lincolnshire Show?**

All suppliers that are interested will go into a draw and the first drawn on each category will be able to show case their products along with advertising their company name.

All products, materials and signage will be at the supplier's expense.

Free advertising will be given on the LMR Stand
This is an excellent opportunity to promote your products with LMR.

We have a strong membership and we anticipate our stand will be very busy over both days.

The deadline for all interested parties is
Monday 19th May.

Categories are:-

**Fencing
Aggregates
Fertilisers
Seed
Tyres
Tanks
Fuel
Renewable Energy**

Please contact Jayne or Andrew

LMR WILL HAVE A STAND AT THIS EVENT

Farming in 2020 – are you ready?

NIAB TAG's NAC Open Day

Thursday 3rd July 2014, 10.30-16.00
Caythorpe

An essential technical event providing open access to arable research and practical information.

Field demonstrations will outline the latest in crop research from NIAB TAG, including variety and fungicide demonstrations. Experts from NIAB TAG, and a range of other research partners, will be on hand at this **free event**, with impartial and independent advice on crop protection and nutrition, farming systems, weed control, plant pathology research, soils and cultivation and variety evaluation and management.

Open to NIAB members and non-members.

LMR WILL HAVE A STAND AT THIS EVENT

Tractor and Trailer hire

We will be supplying a significant number of hire tractors and trailers from a choice of suppliers and manufacturers for this summer period. Please call for a competitive quote.

“Local farmer opens Renewable Energy business.

After 30 years of farming, Richard Limb has first hand experience of what it takes to run a healthy agricultural business and the difference cheaper energy can make to the bottom line. That's why he has joined forces with the UK's largest network of independent renewable energy experts, EnergyMyWay, to bring a complete renewable energy service to farms in the area. With government subsidies now paying for the installation of renewable technologies such as Solar, Biomass Boilers, Heat Pumps and Wind Turbines, Richard is now helping farmers to cash in on the subsidies available and benefit from the long-term rewards of cheaper fuels. For a free survey call Richard Limb at EnergyMyWay on 01909 449 558 or email richard.limb@energymyway.co.uk

Need a Contractor? Spraying, spreading, carting, combining, baling, cultivating, drilling.....

Many of you will be making plans for your farming enterprises for the year ahead. As a member of LMR it is very likely you that you want the opportunity to perform contracting services on another member's farm. We need all members to offer their requirements for contractors to LMR for this to work. **Give your fellow member a chance - everybody will gain.**

LMR's most valuable resource is the members' and the machinery, skills and support they provide. The farmers and contractors offer a very professional service at competitive prices. Please call to investigate the options and see the benefits.
